## PROJECTS / OPEN-SOURCE

**My portfolio | Link**                                          *Reactjs, JavaScript, Css, html*
- This React-based portfolio website serves as a professional showcase, featuring a home page with an introduction and call-to-action, a portfolio section highlighting projects, an "About Me" page detailing background and skills, a resume/CV section, and a contact form for communication.
- The website boasts a responsive design and leverages various technologies.
- It overcame development challenges to provide an impressive platform for sharing achievements and future plans.
- Code link https://github.com/singhvaishu/myreactportfolio/

**Fitvibe | Link**                        *JavaScript, Typescript, Reactjs, Css, html, node js, mongodb*
- This TypeScript-powered gym website is designed to provide a comprehensive online platform for a fitness center or gym.
- It offers information about services, facilities, trainers, class schedules, and membership options. Featuring a dynamic class schedule and secure member information handling, the website is user-friendly and showcases the gym's offerings effectively.
- Future plans may include online booking and member-exclusive features.
- Code link - https://github.com/singhvaishu/Gymfitness/

**Estateflow | Link**                            *JavaScript, Reactjs,Node js , Mongodb, Css,Html*
- Developed detailed property listings with advanced search and immersive virtual tours.

- Implemented secure user registration and Google OAuth login with profile management.
- Integrated interactive maps and site visit booking, showing property locations and nearby amenities.
- Code link : https://github.com/singhvaishu/Estateflow

## CERTIFICATIONS

- Coding and Programing - **Samsung Innovation Campus**
- Web Development - **Udemy**

## HONORS & AWARDS

- Solved 500+ DSA questions
- Women coding championship by coding ninjas - All india rank (973)
